

# Industry Restart Guidelines Outdoor Attractions and Experiences

September 2020

# Victoria's roadmap: Outdoor Attractions and Experiences

On 6 September, the Victorian Government announced Victoria's roadmap for reopening which outlines considered and gradual steps to ensure that businesses can open safely and effectively.

As many Victorian businesses reopen, the priority will be the health and safety of workers and customers.

The industry roadmap includes four steps to easing restrictions and reopening businesses. These steps will be subject to trigger points, determined by our health team to consider any potential changes to the restrictions and will be based on case numbers, testing numbers and other factors.

- The trigger points mean that metropolitan Melbourne and Regional Victoria will take steps (and move to associated restriction levels) at different times.
- Each industry will also have a different restriction level depending on which step metropolitan Melbourne or Regional Victoria is in.

The below [Outdoor Attractions and Experiences Roadmap](#) is intended to assist outdoor attractions and experiences businesses to prepare to safely operate in accordance with the easing of restrictions, while also ensuring the public feels confident that their health and safety is being protected. Outdoor Attractions and Experiences includes fixed outdoor attraction venues (e.g. amusement parks, zoos, drive-in cinemas, live outdoor museums, outdoor cinemas) and paid outdoor experiences (e.g. kayaking, zip-lining). Events such as festivals and people undertaking their own unpaid recreational activities are excluded from this guidance.

The current restriction levels for metropolitan Melbourne and regional Victoria are highlighted in the below roadmap.

		Metro Melbourne	Regional Victoria
<b>First Step</b>	<b>Metropolitan Melbourne</b> - First Step commenced from 11.59pm on 13 September 2020.	<b>Closed.</b>	N/A
<b>Second Step</b>	<b>Metropolitan Melbourne</b> – Move to the Second Step after the later of: <ul style="list-style-type: none"> <li>• Reaching an average daily case rate of 30-50 cases over the previous 14 days, and</li> <li>• 28 September 2020</li> </ul> <b>Regional Victoria</b> – moved to Second Step from 11.59pm on 13 September 2020		<b>Closed.</b>
<b>Third Step</b>	<b>Metropolitan Melbourne:</b> Move to the Third Step after the later of: <ul style="list-style-type: none"> <li>• Reaching &lt;5 new cases (state-wide average over last 14 days) and &lt;5 cases with unknown source (state-wide total last 14 days).</li> <li>• 26 October 2020</li> </ul> <b>Regional Victoria:</b> Move to Third Step from 11:59pm 16 September 2020 assuming the following requirements are met: <5 new cases per day (regional average over last 14 days) and 0 cases with unknown source (regional total last 14 days).	<i>Fixed outdoor attraction venues</i> <b>Heavily restricted.</b> Customer caps. Density quotient applies.	<i>Fixed outdoor attraction venues</i> <b>Heavily restricted.</b> Customer caps. Density quotient applies.
		<i>Outdoor experiences</i> <b>Restricted.</b> Limited booking sizes. Density quotient applies.	<i>Outdoor experiences</i> <b>Restricted.</b> Limited booking sizes. Density quotient applies.
<b>Last Step</b>	<b>Regional Victoria and Metropolitan Melbourne:</b> Move to the Last Step after the later of: <ul style="list-style-type: none"> <li>• Reaching no new cases for 14 days (state-wide); and</li> <li>• 23 November 2020</li> </ul>	<b>Restricted.</b> Limited booking sizes for outdoor experiences. Higher customer caps for fixed outdoor attraction venues. Density quotient applies.	<b>Restricted.</b> Limited booking sizes for outdoor experiences. Higher customer caps for fixed outdoor attraction venues. Density quotient applies.
<b>COVID Normal</b>	<b>Regional Victoria and Metropolitan Melbourne:</b> Move to COVID Normal if we reach no new cases for 28 days (state-wide), no active cases (state-wide) and no outbreaks of concern in other states or territories.	<b>Open with a COVIDSafe Plan.</b> No density quotient for outdoor entertainment venues.	<b>Open with a COVIDSafe Plan.</b> No density quotient for outdoor entertainment venues.

 Status as at 11:59pm 16 September

# Current restrictions on outdoor attractions and experiences businesses

All businesses need to know their obligations and ensure they have an understanding of the current restrictions in place throughout Victoria.

Under directions issued under the *Public Health and Wellbeing Act*, all outdoor attractions and experiences businesses must abide by the following restrictions in both metropolitan Melbourne and regional Victoria respectively, **effective from 11.59pm 16 September**.

These restrictions apply to all outdoor attractions and experiences businesses, including outdoor attraction venues (e.g. amusement parks, zoos, drive-in cinemas, live outdoor museums, outdoor cinemas) and paid outdoor experiences (e.g. kayaking, zip-lining). People undertaking their own unpaid recreational activities are excluded from these restrictions. Events (e.g., country racing, sporting events, festivals, and shows) will be considered on a case by case basis and otherwise public gathering limits apply to spectators.

These restrictions may be updated at any time based on the latest public health advice. You must stay up to date with any changes for your industry.

**Closed (metropolitan Melbourne):** If your outdoor attraction or experience business is located in metropolitan Melbourne, you **must** remain closed, in compliance with directions issued under the *Public Health and Wellbeing Act*. The information contained within these guidelines does not apply to you at this time.

The remainder of these guidelines outline the requirements for reopening under a **Restricted** (for outdoor experiences) or **Heavily Restricted** (for outdoor attraction venues) level and apply to all outdoor attractions and experiences businesses in regional Victoria.

	Metropolitan Melbourne	Regional Victoria	
	<b>CLOSED</b>	<b>RESTRICTED (OUTDOOR EXPERIENCES)</b>	<b>HEAVILY RESTRICTED (FIXED OUTDOOR ATTRACTION VENUES)</b>
<b>Restrictions</b>	<ul style="list-style-type: none"> <li>No people on site except for emergency maintenance and repairs</li> </ul>	<ul style="list-style-type: none"> <li>Must have a COVIDSafe Plan</li> <li>Open with limited booking size</li> <li>Enclosed vehicles (e.g. buses and vans): not permitted</li> </ul>	<ul style="list-style-type: none"> <li>Must have a COVIDSafe Plan</li> <li><b>Indoor space: Closed</b>, except toilets and where used as a thoroughfare to outdoor space (e.g. foyer, reception area) and exceptions for broadcasting and professional sport</li> <li><b>Arcade, amusement park, escape room, casino, gaming machine area, bingo centre: Closed</b></li> <li>Other venues open with customer caps</li> <li>Food and drink spaces can operate consistent with Hospitality guidelines</li> <li>Retail outlets (e.g. gift shops) can operate in accordance with retail restrictions.</li> <li>Enclosed vehicles (e.g. buses and vans): not permitted</li> </ul>
<b>Customer limits</b>		<ul style="list-style-type: none"> <li>A household or up to 10 people in any group, as per public gathering limit</li> <li>The space available must allow for 1.5 metres of physical distancing between customers</li> </ul>	<p><b>Non-seated outdoor spaces where people are ambulant (excludes events)</b></p> <ul style="list-style-type: none"> <li>The maximum participant limit should be the number permitted by the density quotient of one customer per four square metres, rounded down to the nearest number</li> <li>All require a COVIDSafe Plan, venues with <math>\geq 500</math> capacity at one time must publish their COVIDSafe plan online prior to opening.</li> </ul> <p><b>Seated outdoor spaces (maximum of 50 total)</b></p> <ul style="list-style-type: none"> <li>If a space has <b>fixed seating</b> (e.g. fixed seating section of arena): number of members of the public limited to the lower of 50 people or 25% of the venue's fixed seat capacity</li> <li>If <b>no fixed</b> seating, but allocated seated spaces/zones: density quotient of no more than one person per four square metres, with a maximum of 50 patrons</li> <li>Groups are limited to public gathering limit (up to 10) and must be seated 1.5m from other groups</li> </ul>
<b>Face covering requirements</b>		<ul style="list-style-type: none"> <li>All staff and customers must wear a face covering (exemptions apply: e.g. eating, drinking)</li> </ul>	
<b>Cleaning requirements</b>		<ul style="list-style-type: none"> <li>Communal or shared equipment must be disinfected between sessions and not shared within a group during a session</li> <li>Shared spaces and spaces open to members of the public at any Work Premises must be cleaned regularly, including twice a day for frequently touched surfaces.</li> <li>Soap and hand sanitiser must be available for all staff and customers before and after any journey or experience.</li> </ul>	
<b>Record keeping requirements</b>		<ul style="list-style-type: none"> <li>Venues must keep records of staff and customer details for contact tracing, where a person attends work premises for longer than 15 minutes.</li> </ul>	
<b>Signage requirements</b>		<ul style="list-style-type: none"> <li>Display signage at each public entry to each space indicating maximum capacity and COVIDSafe hygiene and physical distancing requirements.</li> </ul>	
<b>Staff member bubbles</b>		<ul style="list-style-type: none"> <li>Employers must not permit a staff member to work at more than one work zone (geographic areas or sites) of the employer, unless it is not practical (e.g. cleaners working across multiple properties). The system to minimise this must be demonstrated (e.g. rosters)</li> <li>Where a staff member is working for different employers across multiple premises, they must provide a written declaration to employers, and employers must record this.</li> </ul>	

Last updated: 16 September 2020

# Six COVIDSafe Principles

All work premises **must** have a **COVIDSafe Plan** (see [Creating a COVIDSafe Plan](#)). A COVIDSafe Plan applies the six COVIDSafe Principles and sets out actions to help prevent the introduction of coronavirus (COVID-19) in the workplace. Display COVIDSafe signage in appropriate, high visibility locations.

## 1. Ensure physical distancing

All people in the workplace should be 1.5m apart and there should be no overcrowded areas. This means:

- Staff should work from home if possible
- Ensure staff and customers are 1.5m apart at all times. Where this is not possible, the duration of the close contact should be minimised
- Ensure the workplace abides by the four square metre rule density quotient
- Limit the total number of staff and customers in an enclosed area
- No carpooling between staff unless there is no alternative mode of transport to work

## 2. Wear a face covering

Staff and customers must always wear a face covering except when eating and drinking, exercising, or health or other exemptions apply. This means:

- Provide face coverings to employees throughout the shift
- Ensure all staff wear face coverings while working
- Do not take face coverings off when talking on the phone or with others
- Use full PPE for high-risk settings

## 3. Practise good hygiene

Operators must regularly clean high touch-surfaces and encourage good hygiene practices by staff and customers. This means:

- Schedule regular cleaning and disinfecting of high-touch surfaces (including all surfaces and handrails) and make gloves available for this purpose
- Encourage regular handwashing by staff and customers and make soap and hand sanitiser available for all staff and customers throughout the workplace

## 4. Keep records and act quickly if staff become unwell

Have a strict policy that any staff who feel unwell must stay at home. This means:

- Support staff to stay home and get tested even if they only have mild symptoms.
- Have a plan to immediately close down for cleaning and contact tracing if there is a coronavirus (COVID-19) case
- Keep records of staff and customer details for contact tracing

## 5. Avoid interactions in enclosed spaces

All activities are to be held in outside areas where practical, which don't have a roof or ceiling. This includes;

- Staff meetings
- Lunchbreaks
- Customer registration

## 6. Create workforce bubbles

Limit the number of people staff have prolonged close contact with. This means:

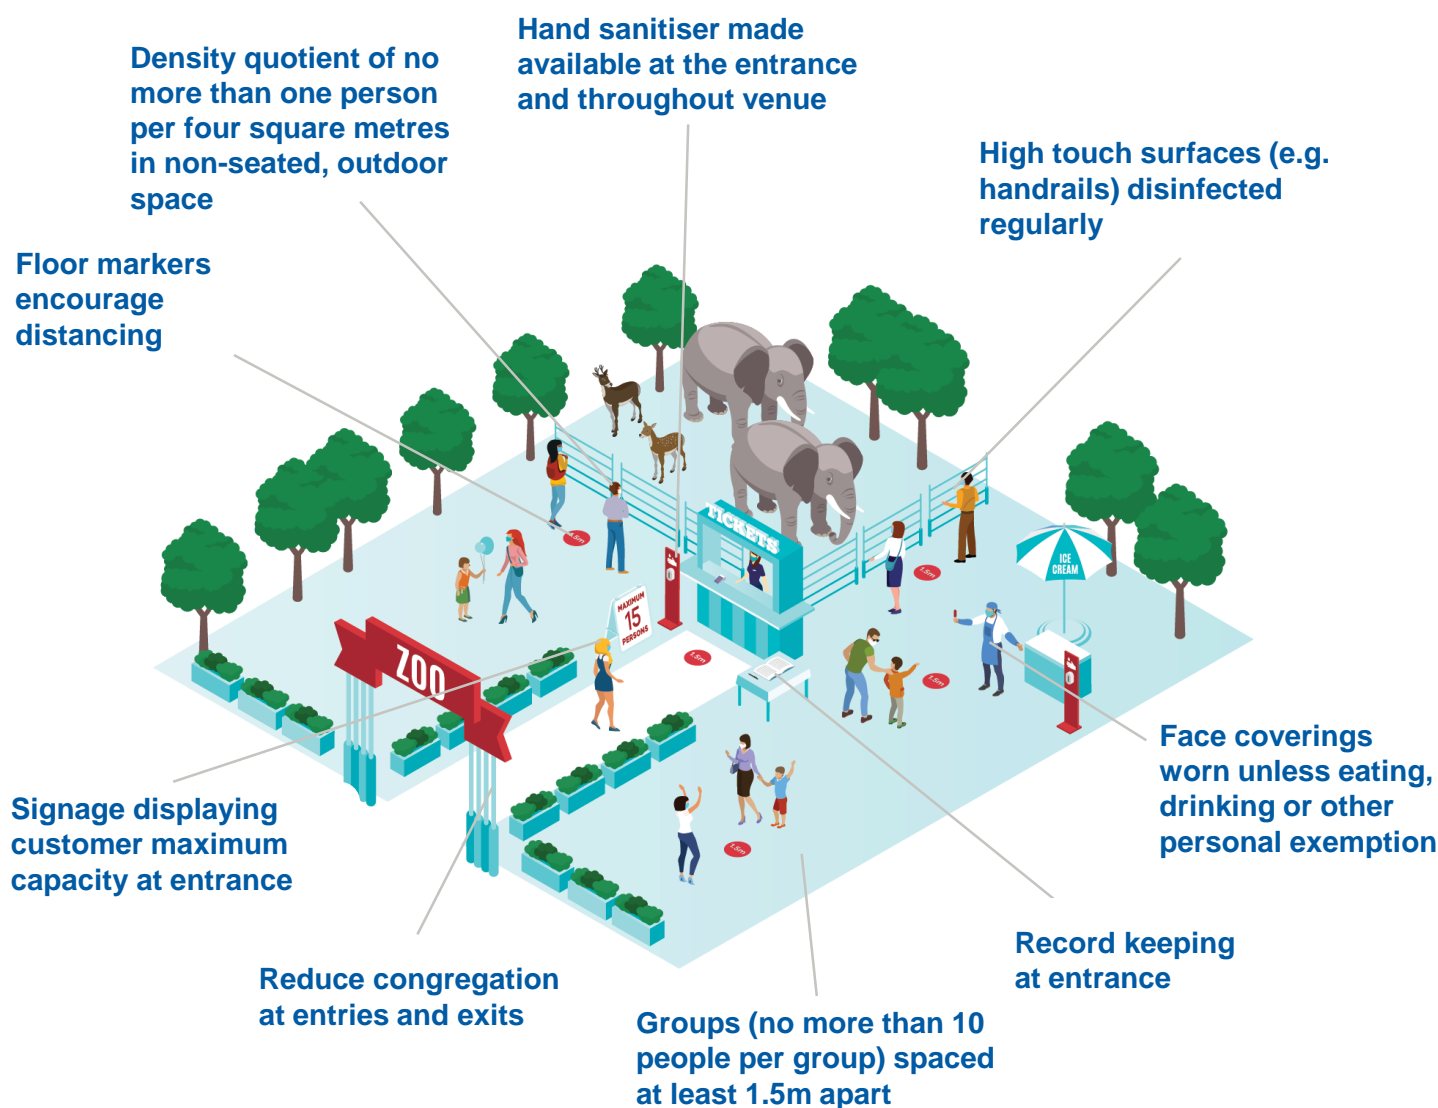

- Keep pools of staff rostered on the same shifts
- Avoid overlap in shift changes
- Reduce staff working across multiple sites

# Creating a COVIDSafe workplace: Outdoor attractions and experiences

All outdoor attractions and experiences businesses **must** ensure they apply the six COVIDSafe Principles to help prevent the introduction of coronavirus (COVID-19) in the workplace.

**Workplaces included:** fixed outdoor attraction venues (e.g. zoos, drive-in cinemas, live outdoor museums, outdoor cinemas) and paid outdoor experiences (e.g. kayaking, zip-lining). This excludes people undertaking their own unpaid recreational activities, and events (e.g. festivals).

**Heavily Restricted** (Regional Victoria – Fixed outdoor attraction venues): Examples of applying the six COVIDSafe Principles are shown below.

## Creating a COVIDSafe workplace: Outdoor attractions and experiences - continued

All outdoor attractions and experiences businesses **must** ensure they apply the six COVIDSafe Principles to help prevent the introduction of coronavirus (COVID-19) in the workplace.

**Workplaces included:** fixed outdoor attraction venues (e.g. zoos, drive-in cinemas, live outdoor museums, outdoor cinemas) and paid outdoor experiences (e.g. kayaking, zip-lining). This excludes people undertaking their own unpaid recreational activities, and events (e.g. festivals).

**Restricted** (Regional Victoria – Paid outdoor experiences): Examples of applying the six COVIDSafe Principles are shown below.

Hand sanitiser should be widely available, including before and after journeys

High touch surfaces (e.g. handrails) disinfected regularly

Activities should be carried out with 1.5m physical distancing

Face coverings worn unless eating, drinking, or exercising (or personal exemption)

Density quotient of one person per four square metres applies in communal areas

Regularly disinfect any shared equipment, encourage customers to bring their own (e.g. paddles)

# 1. Ensure physical distancing

Physical distancing remains one of the most effective ways of slowing the spread of coronavirus (COVID-19) and is a vital part of creating a safe working environment.

Employers **must** implement physical distancing measures to create a COVIDSafe workplace. This means keeping a minimum distance of 1.5m between staff, visitors and customers.

**Restricted** (Regional Victoria) – Outdoor Experiences: A household or up to 10 people in any group, as per public gathering limit. This does not include staff.

**Heavily Restricted** (Regional Victoria) – Outdoor Attractions

- Non-seated outdoor spaces (excludes events)
  - The maximum participant limit should be the number permitted by the density quotient of one customer per four square metres, rounded down to the nearest number
  - COVIDSafe Plan must be published online for venues with capacity of >500 people at one time
- Seated outdoor spaces (maximum of 50 total)
  - If a space has **fixed seating** (e.g. fixed seating arena): number of members of the public limited to the lower of 50 people or 25% of the venue's fixed seat capacity
  - If a space has **no fixed seating** but allocated seated spaces/zones: members of the public subject to density quotient (one person per four square meters) up to a maximum of 50 people
  - Groups limited to public gathering limit (up to 10) and must be seated 1.5m from other groups

## Ensuring physical distancing between staff

### Staff breaks

Spread out staff break times to reduce the number of people using communal facilities at the same time.

### Minimise contact

Remove excess chairs and tables from communal break areas to encourage staff to stay a minimum 1.5 metres from one another.

### Back of house

Reconfigure office spaces, kitchens or workstations so that staff do not face each other where possible and can remain 1.5 metres apart.

### Staff change rooms

Increase the number of areas for changing and consider staggering change times where practical.

### Discourage carpooling

Staff should avoid carpooling to work. Employers should discourage carpooling and where possible, assist staff to find alternate transport options

### Implement virtual meetings

Staff pre-shift meetings and trainings should be held virtually or in areas that allow for appropriate physical distancing between staff. Food and beverages should not be shared.

# 1. Ensure physical distancing - continued

Physical distancing remains one of the most effective ways of slowing the spread of coronavirus (COVID-19) and is a vital part of creating a safe working environment.

## Ensuring physical distancing between customers

### Maintain physical distancing

Facilitate staff and customers maintaining a distance of 1.5 metres from others. If seated, groups must be seated 1.5m apart from other groups, and members of the public must be seated. Any activities should be possible to conduct with 1.5 physical distancing

### Maintain physical distancing in any inside areas

Provide physical barriers or floor markings to ensure physical distancing is maintained in bathrooms and thoroughfares; consider installation of sneeze guards and separate entry and exit points if possible to minimise customer movement.

### Maintain physical distancing inside vehicles

Enclosed vehicle use is not permitted. Where possible, limit the capacity of non-enclosed vehicles to allow passengers to stay 1.5 metres apart, and encourage passengers to remain 1.5 metres apart throughout the journey as well as disembarking.

Consider installing physical barriers that can reduce the spread of droplets, such as a “sneeze guard” but only if it conforms to relevant safety standards.

### Maintain physical distancing while entering and exiting vehicles

Enclosed vehicle use is not permitted. Load and offload passengers by the rear doors if possible or establish a rule that the driver is last-on, first-off of the vehicle. Allow enough time for passengers to disembark from vehicles to allow for adequate distancing and prevent crowding.

### Control the number of customers

Display a sign at each public entry that includes information on the maximum number of people that can be in the space at a single time, consistent with the density quotient. Put in place mechanism to ensure that the number of people in the venue does not exceed the limit.

### Minimise congregation

Use floor markings to provide minimum physical distancing guides and post floor markings to direct one-way flow where possible. Minimise the congregation of people throughout venues, including at queues entrances, hospitality areas, bathrooms. Where possible, stagger arrival times to minimise queues or crowds at the attraction entrance, and ensure physical distancing at hand sanitiser stations. For carparks, consider directing customers to park in every other spot

### Use physical barriers

Use physical barriers where practical, such as plexiglass around serving counters or reception areas

### Encourage cashless transactions

Limit the use of cash transactions by encouraging customers to use tap and go, direct deposit or other contactless payment options. Require online ticket purchase where possible.

### Reduce risks

Use any other reasonable physical distancing measures to implement relevant recommendations by the Victorian Government to manage public health risks at your workplace.

## 2. Wear a face covering

You and your staff **must** wear a face covering at work, and to and from work, unless you have a lawful reason for not doing so.

A face covering needs to cover both your nose and mouth.

Employers **must** ensure staff wear a face covering while at work, [unless an exemption applies](#).

Employers should encourage their workers to bring their own face covering where possible, however there is an obligation for employers to provide a face covering if a worker does not have one. Where the work or task requires the use of specific types of face coverings in the workplace, these must be provided by the employer. Where a worker seeks to provide and use their own face covering at work, an employer must ensure that it is meeting its obligations under the current Public Health Directions and the OHS legislative framework.

Employers have a responsibility to identify whether there is a risk to the health of workers from exposure to coronavirus (COVID-19) at their workplace.

Employers and workers have legal duties under the Occupational Health and Safety Act 2004. See [WorkSafe Victoria](#) for information about minimising health risks in your workplace.

### Wearing a face covering for outdoor attractions and experiences

#### Responsibility for wearing a face covering

Responsibility for wearing a face covering rests with the individual. Employers must take reasonable steps to ensure their employees and customers wear a face covering at all times when at the premises, unless customers are in private rooms, or when a lawful exception applies.

#### Type of face coverings required by outdoor attractions and experiences industry

Outdoor attractions and experiences businesses can wear any type of face covering such as cloth masks or single use surgical mask. A face mask is recommended over a face shield and other forms of face coverings for better protection. Face shields should only in limited situations where a face mask is not practical or safe for a person.

#### Refusing service of customers not wearing a face covering

For the safety of employees and other customers, a business owner or worker can refuse service to customers not wearing a face covering.

#### How should individuals change their face covering?

It is recommended that customers carry a spare face covering in a plastic zip pocket to change their face covering when required. A workplace could also consider displaying signage that highlights the importance of washing hands before and after changing a face covering.

#### When can customers take their masks off?

Customers do not need face coverings while in private areas, while exercising, or eating/drinking (or if a lawful exemption applies). However if the customer enters a communal space or takes a break from the activity/meal (for e.g. to use the facilities or to step outside to take a call), then the face covering must be worn.

### 3. Practise good hygiene

Additional hygiene measures are a priority. Operators should review these guidelines to maintain good hygiene in their premises, and document hygiene practises in their COVIDSafe plan.

Health and hygiene go hand in hand. To ensure the safety and wellbeing of your staff, business owners are encouraged to refer to WorkSafe Victoria, '[How employers can use occupational health and safety \(OHS\) practice to plan for a pandemic](#)'.

*The Public Health and Wellbeing Regulations 2009* set out the requirements for businesses registered under the Act. Proprietors and staff should be familiar with the Australian Standards as they relate to their premises and businesses.

#### Workplace cleaning and disinfecting

Undertake initial pre-opening deep cleaning and implement an environmental cleaning schedule to ensure frequent cleaning and disinfection of high touch surfaces and bathrooms.

Further advice about cleaning can be found at [DHHS cleaning and disinfecting information](#).

#### Cleaning and disinfecting schedule

Ensure surfaces are cleaned regularly, and high-touch surfaces cleaned at least twice on each given day.

#### Accessible cleaning products and disinfectants

Make cleaning products available near commonly used surfaces where possible (for example, placing hand sanitiser near the register, on tables and chairs, and in bathrooms).

#### Reduction of high touch-points

Reduce touch points where possible, such as using contact-less payments and workplace access-cards, and using contact-less drink fountains and entry-points.

#### Education of customers and staff

Display posters on good hygiene and handwashing practices in prominent places and establish hygiene stations (with hand sanitiser) at entrances and throughout the Workplace to encourage hand hygiene of staff and customers.

#### Free infection control training

Free, short, accredited training is available to help staff identify and manage the ongoing risk of coronavirus (COVID-19) infections in the workplace.

[Free infection control training](#) will help businesses prepare to safely reopen and ensure their customers and workforce are protected.

#### Promotion of hygiene tips for workers

- ☐ Wash your hands often with soap and water or alcohol-based hand sanitiser.
- ☐ Wash or sanitise hands after making or receiving deliveries.
- ☐ Sneeze and cough into your sleeve.
- ☐ If you use a tissue, discard immediately and wash your hands afterward.
- ☐ Avoid touching your eyes, nose or mouth.
- ☐ Avoid contact with people who are sick.
- ☐ Stay home if you are sick.
- ☐ Avoid high-touch areas, where possible, or ensure you clean your hands after.
- ☐ If you are required to wear gloves, do not touch your face with gloved hands. Take care when removing gloves. Ensure you wash your hands after removing them.
- ☐ Wash your clothes as soon as you get home.

***Workplaces should regularly check that they are complying with current directions and advice provided by health authorities.***

## 4. Keep records and act quickly if staff or customers become unwell

All businesses **must** keep records of every person who attends the workplace and should have a response plan, as part of their COVIDSafe Plan, to ensure they are ready for the possibility of a person with coronavirus (COVID-19) at their premises.

### Keep records

#### Workplace attendance register

Under current public health advice, all Victorian workplaces are required to establish and maintain a 'workplace attendance register' (see example template [here](#)) of every person who attends the workplace for a period of more than 15 minutes. This includes all workers (including sub-contractors) and any customers or visitors permitted in the workplace (including workplace inspectors).

If a staff member or customer tests positive for coronavirus (COVID-19), a current and accurate workplace attendance register will allow the employer to immediately identify anyone who has been in close contact with that person within the 48 hours prior to the onset of their symptoms.

For more information regarding the definition of a close-contact, see: [DHHS coronavirus \(COVID-19\) Information](#)

### If a customer or employee who is a confirmed case of coronavirus (COVID-19) has attended your business while they are infectious, you must:

#### ☐ Shut down premises

Immediately shut down premises by default upon confirmation of positive case, until DHHS advises next steps.

#### ☐ Contact DHHS and WorkSafe

- Notify DHHS of the case as per the Employer obligations in the Workplace Directions.
- Consult with DHHS on whether the business is required to stay closed for a short period to facilitate cleaning and enable contact tracing.
- Provide attendance records to DHHS
- Report the case to [WorkSafe](#)

#### ☐ Determine hot spots

- Determine what areas of the business were visited, used, or impacted by the persons with coronavirus (COVID-19).

#### ☐ Clean the premises

- Close the affected area to prevent access prior to and during cleaning and disinfection
- Consider engaging suitably qualified personnel to clean and disinfect the area
- Open doors and windows to increase air circulation
- The workplace should be thoroughly cleaned and disinfected before it can be re-opened and workers can return to work.

For more information, see [How to clean and disinfect after a COVID-19 case in non-healthcare settings](#)

## 4. Keep records and act quickly if staff or customers become unwell - continued

All businesses **must** keep records of every person who attends the workplace and should have a response plan, as part of their COVIDSafe Plan, ready for the possibility of a person with coronavirus (COVID-19) at their premises.

### Next steps: Slowing the spread

#### DHHS actions

DHHS will liaise with operators where someone has been at the business while infectious with coronavirus (COVID-19). DHHS may request information from the operator to assist with contact tracing. DHHS may also request that the operator to assist with contact tracing. DHHS will contact anyone who is identified as a close contact of the case.

#### Business actions

Work with DHHS to ensure that all appropriate preventative measures have been taken prior to reopening the business.

Provide DHHS with a list of the customers, staff, and other visitors (for example, contractors, delivery workers) who may be close or casual contacts. Employers must keep a record of all workers and visitors who attend the workplace for longer than 15 minutes over the past 28 days.

Any staff member who tests positive for coronavirus (COVID-19) should remain in home quarantine until they have been notified by DHHS that they are no longer required to quarantine and have met its criteria for release. The staff member should follow DHHS guidance and their employer's policy.

#### Close contacts

Staff who are determined by DHHS as close contacts of a person with coronavirus (COVID-19) must quarantine and should not come to work for 14 days after their last close contact with the confirmed case. They should watch for symptoms and seek medical assessment and testing if they become symptomatic.

#### A note on privacy

Please respect the privacy of people with a confirmed case of coronavirus (COVID-19) and treat their condition with understanding and compassion.

If a staff member is quarantining, check in on their wellbeing regularly and monitor their mental health.

#### What should I do if I am contacted by the media?

You do not have to speak to the media, but if you do, ensure you have taken the time and considered the key messages you want to say. However, this should only be done in coordination with DHHS. Don't respond immediately, take time to consider your key messages, focus on the wellbeing of the affected staff member or customers and measures undertaken to disinfect your property. Remember to respect people's privacy and not give out names of people who have a confirmed case of coronavirus.

#### Additional resources

Staff who have been required to self isolate after a COVID-19 test may be eligible to receive a one-off payment of \$450 from the Victorian Government. Staff who are confirmed as COVID-19 positive may be eligible to receive a one-off \$1500 payment from Commonwealth Government's Pandemic Leave Disaster Payment for Victoria. Further information on coronavirus-related pay and leave entitlements can be found through the Fair Work Ombudsman at:

- [Pay and Leave During Coronavirus](#)
- [Health and Safety in the Workplace During Coronavirus](#)

## 5. Avoid interactions in enclosed spaces

In Victoria, employers have OHS duties and obligations to do what is reasonably practical to provide a working environment that is safe and without risks to the health of staff or customers.

As part of creating a safe working environment that addresses risks associated with potential exposure to coronavirus (COVID-19), businesses should have a plan to minimise the amount of interactions conducted in enclosed spaces and maximise ventilation, air quality and use of outdoor spaces.

This means, wherever possible, moving activities outside or to well-ventilated areas and keeping vehicle windows open as practical to ensure maximum ventilation.

### Actions your business can take

#### Air quality and ventilation

Open windows where possible to maximise ventilation. Use air conditioning to enhance the flow of air, however ensure that you are not using the 'recirculate' mode.

#### Air quality when cleaning

Open outside doors and windows to increase air circulation before commencing cleaning and disinfection. Keep doors and windows open after cleaning and disinfection to allow the cleaning agents to disperse in the airflow.

#### Interactions between staff and customers

Limit interactions between staff and customers, such as using contactless payment methods, automatic check-in procedures and physical barriers

#### Move meetings and functions outside

Where possible, move internal meeting and activities to an outdoor area. Encourage staff to take their lunch breaks and any other breaks outdoors as well.

## 6. Create workforce bubbles

Having 'workforce bubbles' can help reduce the risk of infection and support contact tracing initiatives.

A 'workforce bubble' is a group of staff who limit their in-person interactions to other members of the group. This strategy focuses on reducing the number of individuals in contact, rather than the number of interactions. Should a staff member test positive or have symptoms of coronavirus (COVID-19), it will contain the spread to a minimum number of people within the bubble, rather than requiring the whole business to undergo quarantine.

### To reduce possible exposure and contact, businesses should:

#### Limit

the number of people that staff have prolonged close contact with

#### Modify

processes to reduce interactions between staff members during breaks or when transitioning into or out of work periods where possible

#### Consult

with staff whose work is not essential to the physical operation of the business to determine if working from home or remotely is reasonably practical

#### Review

shift arrangements to create smaller teams and avoid mixing staff across shifts

### Actions your business can take

#### Set up 'pools' of rostered staff

Review shift arrangements to create smaller teams and have each team work independently (known as cohorting) and avoid mixing staff across shifts where possible.

#### Stagger shifts

Stagger or increase the time between shifts to eliminate bottlenecks and avoid intermingling between different teams.

#### Limit staff movement between work zones

Limit staff or contractor movements to one work zone (e.g. areas within a venue, sites, or geographic areas) unless it is not reasonable and practical (e.g. where cleaners must work between different properties).

Where a staff member is working for different employers across multiple premises, they must provide a written declaration to employers. Employers must ensure declarations are collected and recorded.

#### Keep contact records

Keep records that will help businesses enforce workforce bubbles, such as knowing which staff are in different pools, start and end times of shifts etc. Employers must keep a record of all staff and visitors who attend the workplace for longer than 15 minutes in the past 28 days.

#### Coordinate other services

Where possible, businesses should try to coordinate other services, such as food deliveries to align with staff 'pools'.

## Creating a COVIDSafe Plan

Every business is required to complete a COVIDSafe Plan in order to reopen their workplace.

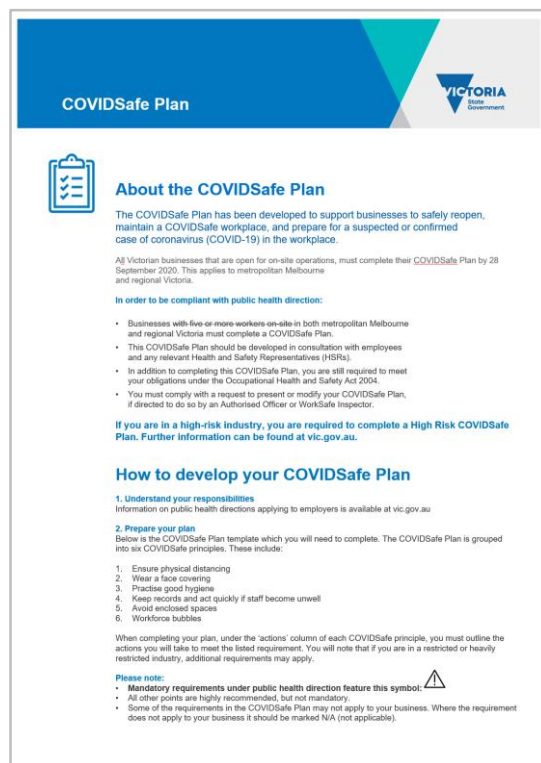

All businesses **must** have a completed [COVIDSafe Plan](#) for each workplace to continue their operation in metropolitan Melbourne and regional Victoria.

As part of a spot check by Victoria Police or other authorities, businesses must be able to demonstrate that they have an adequate COVIDSafe Plan (see next page).

If a business has an existing COVIDSafe Plan, you must conduct regular reviews to ensure it meets up-to-date requirements (e.g. on face coverings).

Your COVIDSafe Plan must set out

- ✓ Your actions to help prevent the introduction of coronavirus (COVID-19) in your workplace
- ✓ The level of face-covering or personal protective equipment (PPE) required for your workforce
- ✓ How you will prepare for, and respond to, a suspected or confirmed case of coronavirus (COVID-19) in your workplace
- ✓ How you will meet all of the requirements set out by the Victorian Government. Some higher-risk industries or workplaces have additional requirements of employers and staff.

**Workplaces should regularly check that they are complying with current directions and advice provided by health authorities.**

### Occupational Health and Safety Act

A [COVIDSafe Plan](#) forms part of the development of a safe system of work.

Workplaces should also note that the workplace health and safety obligations remain under the Occupational Health and Safety Act 2004 (OHS Act) with respect to identifying hazards and eliminate or, where is not possible to eliminate, reduce risks as far as reasonably applicable.

Staff must also comply with their obligations under the OHS Act.

For further information on your obligations under the OHS Act, please visit [the WorkSafe website](#).

For more information about creating a COVIDSafe workplace, please visit:

- [WorkSafe: Coronavirus \(COVID-19\)](#)
- [WorkSafe: Preparing a pandemic guide](#)
- [DHHS: Business and industry - coronavirus \(COVID-19\)](#)
- [DHHS: Preventing infection in the workplace](#)
- [DHHS: Workplace obligations](#)
- [DHHS: Confirmed case in the workplace](#)

## Compliance and enforcement

Venues should regularly check that they are complying with current directions and advice provided by health authorities.

Each business has an obligation to ensure that their workplace is compliant and has been cleaned and disinfected prior to re-opening or re-commencing operations.

Workplaces may consider nominating a staff member to be the COVID-19 Response Officer (or similar) to oversee the implementation of the workplace's coronavirus (COVID-19) plan, and ensure that correct processes are being followed, any relevant documentation is complete, staff are trained, and procedures are kept to up-to-date to comply with current health information.

Evidence of compliance with the directions of the Victorian Chief Health Officer may be requested from a relevant compliance/enforcement officer. Victoria Police may conduct spot checks to ensure compliance with the directions of the Chief Health Officer. WorkSafe will continue compliance and enforcement action under the Occupational Health and Safety Act 2004 (OHS Act).

### Where can I find further information on safely reopening my workplace?

Business Victoria is ready to support businesses and answer questions about preparing for a safe reopening. Business Victoria can be contacted on 13 22 15 or online by the [Contact Us form](#).

For information on health and safety requirements under the OHS Act, businesses should refer to [WorkSafe Victoria's website](#) or contact its advisory service on 1800 136 089.

### How will you enforce compliance? Who will enforce it?

Victoria Police, and other authorities involved in the regulation of businesses may conduct spot checks to ensure compliance with the directions of the Victorian Chief Health Officer.

WorkSafe will continue compliance and enforcement action under the Occupational Health and Safety Act 2004 (OHS Act). For information on health and safety requirements under the OHS Act, businesses should refer to [WorkSafe Victoria's website](#) or contact its advisory service on 1800 136 089

### Fines and penalties

Victoria Police can issue on the spot fines of up to \$1,652 for individuals and up to \$9,913 for businesses for:

- Refusing or failing to comply with the emergency directions;
- Refusing or failing to comply with a public health risk power direction; or
- Refusing or failing to comply with a direction by the Victorian Chief Health Officer.

Fines can be extended through the Magistrates' Court to a maximum of \$20,000 for individuals and \$100,000 for businesses.

WorkSafe may take a range of compliance and enforcement action against an employer which fails to comply with its duties under the OHS Act.

More FAQs that apply to all businesses are available at the Business Victoria website.

## Can I run a festival or event?

**Heavily Restricted:** Events where people are likely to congregate (such as country racing, sporting events, festivals, shows) will be considered on a case-by-case basis and otherwise public gathering limits apply to spectators.

## My business includes hands-on activities with shared equipment – am I allowed to operate?

**Restricted:** Yes, provided it is cleaned between sessions and not shared within a group during a session.

Where possible, customers should be encouraged to bring their own equipment and clothing (e.g. use their own helmet or goggles).

You should avoid sharing equipment that touches the head or face. In some instances, protective barriers or linings could be considered e.g. wearing a washable liner underneath a helmet. If clothing is required to be shared, it should be thoroughly cleaned before the next user. For clothing that can be machine-washed, a hot setting should be used. As a secondary protective measure (in addition to cleaning and disinfection), equipment could be quarantined for a period of time before next use (e.g. 72 hours).

Other shared equipment should be cleaned between uses with a cleaning regime that must include use of a disinfectant with anti-viral properties that complies with the published requirements of DHHS.

You can find more information on the DHHS [website](#).

## Can I operate a market? Can I have live entertainment (e.g. live music, cooking demonstrations)?

**Heavily Restricted:** Market stalls may open provided they adhere to the density quotient of one person per four square meters.

## My business involves offering outdoor activities for people (e.g. guided tours, kayaking) – can I re-open?

**Restricted:** Outdoor experience businesses can operate as long as capacity limits are adhered to and physical distancing can be maintained. Operators should support participants to take reasonable steps to maintain a distance of 1.5 metres from all other persons.

## Are people from Metropolitan Melbourne allowed at my outdoor experience or attraction?

No. Travel between metropolitan Melbourne and regional Victoria is not permitted for the purposes of outdoor experiences or attractions at this time.

Business owners must use reasonable endeavours to satisfy themselves that their customers do not live in metropolitan Melbourne. This can be confirmed by asking customers to confirm that they don't live there and by using a driver's license or other relevant forms of ID.

People from regional Victoria may not travel through metropolitan Melbourne for the purposes of outdoor experiences or attractions at this time, even if their destination is in regional Victoria.

Travel within regional Victoria is permitted.

More FAQs that apply to all businesses are available at the Business Victoria website.

## I run a stadium / arena. What restrictions apply?

**Heavily Restricted:** Stadiums and arenas can operate for exclusive use by a single school at any one time for education purposes. Additionally, stadiums and arenas with fixed seating can open to the lower of 50 people or 25% of the venue's fixed seat capacity.

## I run an attraction which includes a retail outlet – can I re-open?

**Heavily Restricted:** Yes, however you must comply with current restrictions on retail outlets.

## I run an attraction which includes a restaurant or cafe – can I open them?

**Heavily Restricted:** Yes, see Hospitality Guidelines.

## I operate a winery that hosts private and business functions – can I start hosting functions?

For details about hospitality workplaces, see Hospitality Guidelines

## I operate a cellar door at a winery, brewery or distillery – can I re-open? What restrictions apply?

Yes. For details about hospitality workplaces, see Hospitality Guidelines.

## I run a skate park. Can I re-open?

Yes, for outdoor skateparks only. For details about outdoor physical recreation, see Physical Recreation Guidelines.

## Can I operate a drive-in cinema?

Yes, however persons are not allowed to be seated outside their vehicles. Outdoor, non-seated areas are allowed to be open.

## I run an amusement park / arcade / escape room – can I re-open?

**Heavily Restricted:** As per Heavily Restricted guidance, these businesses must remain closed at this time.

## I operate a hot springs facility – can I re-open?

**Heavily Restricted:** Chlorine residuals are critical in managing the risk of coronavirus (COVID-19).

Hot and mineral springs are not prevented from opening outdoor pool-based bathing water as long as chlorine residuals are maintained that are acceptable to local government and DHHS. Saunas and spas, including those in the community, remain closed.

## I am a private zoo operator – can I re-open?

**Heavily Restricted:** Yes, zoos can open, adhering to physical distancing and capacity restrictions.

## I run a retail betting venue – can I re-open?

**Heavily Restricted:** If the venue is wholly contained within a licensed premises, the betting area must be closed (pending above option to create predominately outdoor options).

If not wholly contained within a licensed premises: open subject to requirements on an open retail facility, i.e. density quotient, cleaning and signage requirements.

# Reopening my business

Please note that the checklists below outline the restrictions and requirements that apply from 11:59pm on 16th September 2020.

## Checklist for business owners/managers

### ☐ Prepare your COVIDSafe plan

Every business is required to have a [COVIDSafe Plan](#) that is regularly updated in order to reopen their workplace.

### ☐ Ensure workplace is set up to adhere to customer limits

- ☐ see table in the section [Current restrictions on outdoor attractions and experiences businesses](#) for customer limits
- ☐ a density quotient of one customer per four square metres of the area accessible to customers
- ☐ all seating is spaced so that customers are 1.5 metres apart if/when seated

### ☐ Prepare a cleaning schedule

- ☐ Businesses should conduct a deep clean of the premise.
- ☐ Establish new processes and schedules for cleaning and sanitising to maintain good hygiene, including frequent cleaning of high touch points (see our [Cleaning and Sanitising Fact Sheet](#)).

### ☐ Signage requirements

- ☐ Display signage for staff and customers in appropriate, high visibility locations, to include:
  - At workplace entrance to advise of the maximum number of customers allowed
  - Information about the symptoms of coronavirus (COVID-19) and the need to stay home when unwell
  - Hygiene and physical distancing practices.
- ☐ Display a poster at the workplace confirming staff have reviewed the guidelines and evidence that at least one staff member has completed the recommended training.
- ☐ Promote physical distancing, including between staff and customers, with floor or wall markings or signs. Use physical barriers where possible (e.g., installation of sneeze guards).

### ☐ Establish your record keeping

- ☐ Record the contact details of any customer who attends your workplace for longer than 15 minutes (this includes contractors and delivery staff), to include: first name and a contact phone number to support contact tracing. Retain for at least 28 days following the visit.
- ☐ Maintain Staff Coronavirus (COVID-19) Health Questionnaires to be completed at the start of each shift.
- ☐ Set up a roster to ensure staff do not work across multiple sites, or for multiple employers unless an exemption applies.

### ☐ Consult with staff

Employers must, so far as is reasonably practical, consult with staff and HSRs (if any), on matters related to health or safety that directly affect, or are likely to directly affect them.

# Reopening my business

## Checklist for business owners/managers cont.

### ☐ Staff and management policies, practices and training

- ☐ Ensure you as the operator or manager understand your obligations under the Occupational Health and Safety Act and have reviewed the coronavirus (COVID-19) guidance from WorkSafe Victoria available at [here](#).
- ☐ Encourage staff to complete [free infection control training](#) and download the COVIDSafe App. It is the Government's expectation that:
  - at least one staff member at every workplace will have completed the training
  - staff should make themselves familiar with these guidelines
- ☐ Consider appointing a staff member to be your coronavirus (COVID-19) Response Officer to ensure policies and practices are being followed, staff are trained, and records are kept.

### Additional resources

For additional information about creating a COVIDSafe workplace, please refer to the following guidance:

- WorkSafe: [Industry obligations](#)
- WorkSafe: [Managing COVID-19 risks – face coverings in workplaces](#)
- DHHS: [Preventing infection in the workplace](#)
- DHHS: [Preparing for a case of coronavirus \(COVID-19\) in your workplace](#)
- DHHS: [Planning and responding to cases of coronavirus \(COVID-19\)](#)
- DHHS: [Cleaning and disinfecting to reduce COVID-19 transmission](#)
- WorkSafe: [Other relevant industry specific guidance](#)

# Returning to work

If you are working in the outdoor attractions and experiences industry, consider using the checklist below:

## Checklist for staff

### ☐ Complete free infection control training

All current staff should complete [Free infection control training](#). Any new staff being engaged also need to complete this training.

### ☐ Do not carpool with other colleagues unless they are from the same household.

### ☐ Wear a face covering at work, and to and from work unless you have a lawful reason not to do so

### ☐ Practise good hygiene

- ☐ Be rigorous in maintaining the new cleaning and sanitising schedule (for example, touch points such as tables and counters need to be cleaned and sanitised before and after use by customers).

### ☐ Wash your hands thoroughly with soap and water for at least 20 seconds at the very minimum:

- ☐ On arrival at work
- ☐ Before preparing or delivering food and/or beverages to tables
- ☐ After collecting/clearing used food and beverage items
- ☐ Before returning to food or beverage preparation areas
- ☐ At the start and end of each meal break
- ☐ Before and after touching a customer or their belongings
- ☐ After handling money
- ☐ Before leaving work
- ☐ After blowing your nose, coughing, sneezing, or using the toilet.

### ☐ Stay home if unwell

- ☐ If you have symptoms, get tested for coronavirus (COVID-19). Stay in isolation at home until you get the result and it is negative for COVID-19.
- ☐ Do not come to work if you have a fever (a temperature of 37.5°C or greater), or if you have any symptoms.

# Staff health questionnaire

## STAFF CORONAVIRUS (COVID-19) HEALTH QUESTIONNAIRE

We encourage each staff member to complete this questionnaire before starting any shift and give your completed questionnaire to the shift manager to keep as a record.

Staff name: \_\_\_\_\_

Date: \_\_\_\_\_ Time of shift \_\_\_\_\_

Are you currently required to be in quarantine because you have been diagnosed with coronavirus (COVID-19)?

☐ YES ☐ NO

Have you been directed to a period of 14-day quarantine by the Department of Health and Human Services as a result of being a close contact of someone with coronavirus (COVID-19)?

☐ YES ☐ NO

**If you answered YES to either of the above questions you should not attend work until advised by the Department of Health and Human Services that you are released from quarantine or until your 14-day quarantine period is complete.**

**If you answered NO to the above questions, proceed to the symptom checklist below.**

### Are you experiencing these symptoms?

Fever (If you have a thermometer, take your own temperature. You are considered to have a fever if above 37.5oC) ☐ YES ☐ NO

Chills ☐ YES ☐ NO

Cough ☐ YES ☐ NO

Sore throat ☐ YES ☐ NO

Shortness of breath ☐ YES ☐ NO

Runny nose ☐ YES ☐ NO

Loss of sense of smell ☐ YES ☐ NO

If you answered **YES** to any of the above questions you should **not** enter your workplace (or should leave your workplace). Tell your employer, go home, and get tested for coronavirus (COVID-19).

If you answered **NO** to all the above questions, you can enter your workplace.

If you develop symptoms, stay at home and seek further advice from the 24-hour coronavirus hotline 1800 675 398 or your general practitioner.
